| Title: An Improved Method, Structure and Process Flow to Reduce Line-Line Capacitance |
| with Low-K Material |

INFORMATION DISCLOSURE STATEMENT

References - - See attached Form PTO-1449

In compliance with 37 C.F.R. §§ 1.56, 1.97 and 1.98, your attention is directed to the United States patents and other references listed on the attached Form PTO-1449. No admission is made regarding whether all the submitted references are prior art.

The listed references were cited by, or submitted to, the Office in the parent, copending application of the above-identified application. The above-identified application is a continuation application of co-pending application Serial No. 10/039,456, filed December 31, 2001, upon which the above-identified application relies for a priority date under 35 U.S.C. §120. Such prior disclosure is sufficient for the above-identified application as far as copies of the references are concerned. 37 C.F.R. §1.98(d) and MPEP §609(2).

Citation of these references is respectfully requested.

Respectfully submitted,

Date: 7-23-03
